# 1. Supply at a glance

MINIMUM ORDER

**1 pallet per SKU**

Mixed pallets available, including private label. Containers give the best unit price.

LEAD TIME

**2–6 weeks**

From order confirmation, depending on schedule, packaging and route.

PRIVATE LABEL FIRST RUN

**4–8 weeks**

Includes 2–4 weeks for artwork approval and packaging print.

SAMPLES

**3–5 days**

Sample delivery to the EU and UK.

## Container capacities (reefer, −18°C)

| Container | Approx. tortillas | Pallets | Typical transit |
|---|---|---|---|
| 20ft reefer | ~800,000 | 18–20 | EU 3–10 days · UK & North America 10–20 days |
| 40ft reefer | ~1,200,000 | 36–40 | EU 3–10 days · UK & North America 10–20 days |

A 40ft container typically improves cost efficiency by 35–40% versus pallet freight.

## Formats

- **Chilled / ambient:** short supply chains and fast-turning retail.
- **Frozen (−18°C):** long-haul export, foodservice stock rotation and less waste.
- **Private label:** retail flow-wrap packs, foodservice bulk bags and catering cartons under your brand.

# 2. Product specifications

Standard specifications. Custom diameters, weights and pack counts are available for private label programmes.

## 3. Certifications and export documents

- **BRCGS** — Global food safety standard for manufacturing.
- **IFS** — International Featured Standards for food safety.
- **ISO 22000** — International food safety management standard.
- **HACCP** — Hazard Analysis and Critical Control Points system.
- **Halal** — Certified for halal production requirements.
- **Health Certificate** — Official health certificate for export shipments.
- **Certificate of Origin** — Documentation confirming country of manufacture.
- **Allergen Declaration** — Ingredient and allergen declaration documentation.
- **Technical Datasheet** — Full product specification datasheet per SKU.
- **Microbiological Spec** — Microbiological specification per product line.

## 4. Importing to the UK and EU — what to prepare

- Commercial invoice and packing list
- Certificate of origin (country of manufacture)
- Health certificate for food products
- Allergen declaration and product specification sheet
- Customs commodity code — typically 1905.90 for bakery products
- Temperature logs for frozen shipments, reviewed at port clearance

UK retailers and major foodservice buyers usually require **BRCGS** certification. Ask for the current certificate and latest audit report before your first order.

## 5. How wholesale pricing works

Wholesale tortilla prices depend on size, format, packaging and volume. Compare quotes on a like-for-like **landed cost** basis:

| Cost element | What to check |
|---|---|
| Product price | Per case or per 1,000 units; volume tiers for pallet vs. container. |
| Packaging | Standard vs. private label; one-off artwork and print set-up. |
| Incoterms | EXW, FOB or CIF — who pays freight and insurance, and where risk transfers. |
| Freight | Reefer container or groupage; cold-chain monitoring. |
| Duties and clearance | Import duty for your commodity code, customs broker and port fees. |
| Cold storage and delivery | Storage at destination and onward distribution. |

## 6. Request-for-quote checklist

Send these details and you will receive an accurate container quotation faster:

- ☐ Products and sizes (e.g. 25cm flour wrap, 15cm corn)
- ☐ Estimated monthly volume and order frequency
- ☐ Chilled, ambient or frozen
- ☐ Standard packaging or private label
- ☐ Delivery country and preferred incoterm
- ☐ Required certifications (BRCGS, IFS, Halal...)
